## Archer

From Brown's "Genesis of the United States" ~~getting from the account given under the~~  
reading of Captain Gabriel Archer we find "as  
his father John <sup>Archer</sup> was afterwards admitted  
into the Virginia Company and given a  
share of land in Virginia as his heir, it  
seems evident Captain Gabriel Archer left  
no children". Two sons of John Archer  
the member of the Virginia Company appear  
to have come to Isle of Wight County, Va,  
John and George Archer. A deed in  
the extant records of the County prove  
that George Archer had formerly held land in Isle  
of Wight before he removing to Henrico  
County where he patented in 1665 a tract  
of 550 acres on Turnstall's Creek, in the  
part of the County which <sup>later</sup> became Chesterfield  
~~County~~. He had other large grants and  
died in 1677. The records show that Joseph  
Royall married his widow, ~~and her identity~~  
her identity is unknown, although it is  
claimed by some genealogists that she  
was a daughter of Captain Abraham  
Wood. His children were George of  
Henrico 1st married Elizabeth Harris.

Adria aged 23 came in the "Mormaduke" in 1621. He had a second wife Joane. He was "an ancient planter and adventurer in the time of Sir Thomas Dale his Government." He was a Burgess from Henrico, 1623/4, 1639, 1646, 1652, 1653 and 1657/8.
